**Toolwiz Time Freeze** is a free instant system protection tool to keep your system safe and always like new. It protects your system from any unwanted changes and malicious activity in low disk level. With a simple click, it puts your actual system under virtual protection on the fly and creates a virtual environment as a copy of the real system, on which you can evaluate applications, watch movies, and perform online activities. It provides higher-level security to computer protection, and greatly improves the efficiency of virtual system.

Operating Systems Supported:

Microsoft Windows 7 (32-bit and 64-bit)
Microsoft Windows Vista (32-bit and 64-bit)
Microsoft Windows XP (32-bit and 64-bit)
Microsoft Windows 8 (32-bit and 64-bit)
