How to Use?

'Firefox Download Unblocker' is very easy to use tool with its cool GUI interface.

Here are the simple steps,

- Run 'Firefox Download Unblocker' on your system
- It will show you the current 'Firefox Download Status'
- Now you can just click on Unblock (or Block) Downloads button to disable Blocking (or Unblocking) of all File Downloads in Firefox as shown in the screenshots below
- That's all :)

Ca ou rien...
