TaskSchedulerView v1.11 est maintenant disponible.

Il y a une "patch" pour le mettre en français.

Versions History:

Version 1.11:

- Added 'Running Instances' column, which shows the number of instances of this task that are currently running.

Version 1.10:

- Added 'Task Owner' column, which displays the Windows user that owns the task.
- Added 'Priority' column, which displays the priority level of the task. Priority level 0 is the highest priority, and priority level 10 is the lowest priority. The default value is 7.
- Added 'Open Windows Task Scheduler' option (Under the Help menu).
- Added 'Hide Tasks In Microsoft Folders' option.

Version 1.00 - First release.
