SoftPerfect File Access Monitor turned into freeware

<http://www.ghacks.net/2016/11/01/file-access-monitor/>

**Closing Words:**

SoftPerfect File Access Monitor is a professional file access monitor for Windows. SoftPerfect has turned the program into a legacy product. This means that it is no longer developed or updated, but available for free to all users.

C'est ce que disait Sylvie, c'est un " legacy product".
