Sur 2 de mes 3 ordinateurs, j'ai installé à la fois Firefox 63.0.3 x86 et Firefox 60.3.0 x86 ESR.

Ci-joint, la liste de mes extensions:

Add-on List-o-matic 9000 1.4 (j'ai créé cette liste grâce à cette extension)  
Helps create a list of all add-ons.

-----  
Auto-Sort Bookmarks 3.3.2

Sort bookmarks by multiple criteria.

<https://addons.mozilla.org/en-US/firefox/addon/auto-sort-bookmarks/>

ou

Sort Bookmarks 0.5

Sorts bookmarks.

<https://addons.mozilla.org/en-US/firefox/addon/sort-bookmarks-webext/>  
-----

AutocopySelection2Clipboard 2.6.0

Autocopy selection to clipboard

<https://addons.mozilla.org/en-US/firefox/addon/ocopyselection2clipboard/>

Bookmarks Organizer 2.0.1

With the Bookmarks Organizer it's easy to put order in your bookmarks. The Bookmarks Organizer finds no longer working bookmarks, redirects, duplicates and more!

<https://addons.mozilla.org/en-US/firefox/addon/bookmarks-organizer/>

ClearURLs 1.3.4.0

Remove tracking elements from URLs.

<https://addons.mozilla.org/en-US/firefox/addon/clearurls/>

CopyTabTitleUrl 1.2.1

Copy the tab title and URL to the clipboard.

<https://addons.mozilla.org/en-US/firefox/addon/copytabtitleurl/>

#### Don't track me Google 4.21

Removes the annoying link-conversion at Google Search/maps/...

<https://addons.mozilla.org/en-US/firefox/addon/dont-track-me-google1/>

#### Kill Sticky 1.4

Kill off the annoying floating things blocking the website you're trying to see

<https://addons.mozilla.org/en-US/firefox/addon/kill-sticky/>

#### Load Background Tabs Lazily 0.8.6

Allow only a specific number of new background tabs to load at one time.

<https://addons.mozilla.org/en-US/firefox/addon/load-background-tabs-lazily/>

#### New Tab Homepage 0.6.2

Loads your homepage when you open a new tab.

<https://addons.mozilla.org/en-US/firefox/addon/new-tab-homepage/>

#### NoScript 10.2.0

Extra protection for your Firefox: NoScript allows JavaScript, Flash (and other plugins) only for trusted domains of your choice (e.g. your home-banking web site). This whitelist based pre-emptive blocking approach prevents exploitation of security vulnerabilities (known and even unknown!) with no loss of functionality... Experts will agree: Firefox is really safer with NoScript

This extension highlights the specified word. You can specify any number of words separated by spaces.

<https://addons.mozilla.org/en-US/firefox/addon/search-and-highlight/>

#### Search Multi Tabs 1.3.0

Search Word position across your tabs body or title/url in sidepanel.

<https://addons.mozilla.org/en-US/firefox/addon/search-multi-tabs/>

#### Tab Count Icon 0.8.1.1

Shows number of open tabs.

<https://addons.mozilla.org/en-US/firefox/addon/tab-count-icon/>

#### Tab Mix - Links 0.1.0

Tab browsing with an added boost.

<https://addons.mozilla.org/en-US/firefox/addon/tab-mix-plus-webextension/>

#### uBlock Origin 1.17.4

Finally, an efficient blocker. Easy on CPU and memory.
