Nouvelle mise à jour Cleanmgr+ 0.8.0 rc2

- Added summary of space that could be gained to storage window (top area of the app)
- Added support for Custom Items (files, directories, registry keys can be cleaned up simply by putting items to mycleaner.txt in bin directory of Cleanmgr+ (or just use "+" button right to the main menu of the app)
- Optimized main tabs layout "Disk Cleanup" and "+ more"
- Added new menu "+" (for including custom items) to top area next to the hamburger/main menu
- Optimized file detection in recycle bin > 2 TB
- Optimized command-line support (added option tuneup for cleaning custom items)
- Optimized context-menus
- Optimized logging output
- Numerous UI Improvements
- Fixed numerous minor bugs
