FlashPatch!
https://github.com/darktohka/FlashPatch

FlashPatch! is a tool that modifies the Flash Player installation on your computer, making it possible to play games in the browser again.
It bypasses the January 12th, 2021 killswitch that prevents you from playing any Flash Player game or animation after January 12th.

FlashPatch! 1.5

Traduction
FlashPatch ! est un outil qui modifie l'installation de Flash Player sur votre ordinateur, ce qui vous permet de jouer à nouveau à des jeux dans le navigateur.
Il contourne le verrou du 12 janvier 2021 qui vous empêche de jouer à tout jeu ou animation Flash Player après le 12 janvier.
