V 1.6

1. [FIXED] – Changing settings after selecting a different language causes errors
2. [FIXED] – Clicking links on the about screen causes errors
3. [FIXED] – Can't write to file error
4. [ADDED] – User can change icons in "icons folder" and use their own icons
(Choose 4th icon packs in options menu then save the settings)
5. [ADDED] – Some code improvements
