Bonjour

J'ai résolu (par hasard) le Bug des hyperliens et orthographes

Mettre le paramètre IE

Voir photo ci-joint

Chez moi tout est OK sur plusieurs de mes PC

Cordialement

The screenshot shows a Windows email client interface with a settings dialog box open. The dialog box is titled "Paramètres DM Pro 6" and has several tabs: "Général", "Langage-Apparence", "Courriel", "Recevoir", "Envoyer", "Lien le courriel", "Corbe", "Composition", "Dossier courriel", "Style des listes", "Étiquetage", "Indésirable", "Liste noire", "Suppression", "Archivage", "Sécurité des données", "Anti-hameçonnage", "Suivi du courriel", "Horaires-Autres", "Mot de passe", "Raccourcis clavier", "Paramètres réseau", and "Paramètres avancés". The "Paramètres avancés" tab is selected, showing settings for "Exclusif VIP", "Système", "Interface et style", and "Arborescences (Boîte de réception, Etc.)". A red arrow points to the "Sélection automatique" dropdown menu in the "Système" section, which is currently set to "E".

The main window displays a list of emails with columns for "Reçu le", "Destinateur", and "Taille". The selected email is from "Assurance Maladie" with the subject "À la une". The email content shows a photo of a healthcare worker and a patient, with the text "À la une" visible.

The bottom of the window shows the Windows taskbar with the Start button, search icon, and several application icons. The system tray shows the time as 09:37 on 25/11/2021.
