v1.23 (June 23, 2021)

- Updated the mkvtoolnix tools to the latest version (v56.1.0 'My Friend')
- Bug fix: Crash when checking if Avisynth+ is properly installed when the VC++ redistributable package is not installed.
- Bug fix: Clone subtitle positions did not work correctly when Process only the subs in the upper half of the screen was selected and the last subtitle in the guide was in the upper part of the screen.
- Bug fix: Clone subtitle positions: The warning (if any) was added to the XML even if it was already present.
