2.5

<https://github.com/filecxx/FileCentipede/releases/tag/2.5>

New:

Save column width.

Save window position. (default: off)

Force restart

Add trackers from the subscribed list.

Command line: create_torrent

Language: português

Translation tool: select languages directory

Fixed:

When remote HTTP server received range: bytes=0-0, but continue response more data, causing task progress over 100%.

Max Connect timeout up to 120s instead of 12s

File name incomplete when remote HTTP server response header field content-disposition contains multiple "?UTF8?B?" sections.

Auto upgrade software.
