2.61

<https://github.com/filecxx/FileCentipede/releases/tag/2.61>

New:

Remote download manager (NativeUI, not WebUI)

File browser: copy file URL, path

Command line: service_port, service_password, remote_access

Browser extensions up to 1.7

Fixed:

(2.61) downgrade wolfssl to 5.4.0

Cannot save options from the software's update dialog.

filec crashes when deleting an SSH or FTP directory and then canceling it.
