PhotoDemon v9.0 (2020-09-08)

After two years of work, PhotoDemon 9.0 is now available. Highlights of this release include an improved user interface, new best-in-class selection tools (including support for multiple selections), support for many new image formats (AVIF, Paintshop Pro (PSP), GIMP (XCF), SVG, and more), content-aware fill, new filters and effects, and so much more.
