v1.27 (September 13, 2022)

- Re-introduced MVCPlanes2OFS instead of OFSExtractor because it creahes under some Windows versions or implementations.
- Added Help -> Download free 3D ISO for testing, to open the Kodi Wiki page where you can download up to 13 3D samples ready to encode.
- Removed Help -> Check for Update, because the current http package doesn't support https, now required by VideoHelp.
