Version 4.6.3

- Ticket #147: Possible fix to prevent capture box and preview from being displayed beneath other windows, especially after running for long periods of time or returning from sleep.
- Improved the quality of the Text Line Capture feature, especially in the case where the last character is close to the boundary of a speech bubble which is itself close to some kind of high contrast foreground element.
- Ticket #173: Fixed "\${timestamp}" format option not working.
- Ticket #182: Added tooltip to the tray icon.
- Ticket #179: Replace Unicode single quote (') with an ASCII single quote ('). Also replace (") and (") with (").
- Ticket #163: Added note to the Hotkeys settings page regarding the proper method to disable hotkeys.
- Ticket #175: BOM is no longer added to text files that are output by Capture2Text.
- Ticket #162: Updated copyright date in the About dialog.
