v 1.0.07

- Fix the port occupy issue when running on the same machine with external DHCP server.
- Add DNS option for internal DHCP Server.
- Add Boot Menu Resolution option.
- Fix a bug that the configuration is not saved after switch DHCP server mode.
- Fix the ignored null byte in input warning when run iventoy.sh.
- iventoy.sh add -R option for auto start service with last parameters.
- Bugfix, comments and suggestions are welcome.
