v 4.7.0.0:

- Fix O and ST exchanged in certificate generator
- Save log flags to config
- Show log window icon in Alt+Tab windows list
- OpenSSL 3.0.x support
- Enable configuration of server cipherlist via ServerCiphers
- Make generated certificates' dates match root
- Fix race condition that may lead to inconsistent connection numbering
- Fix content length determination for 204 and 1xx responses
- Correct length in Recent URLs for chunked transfer encoding
- Fix forced filtering of compressed content
- Add custom icons feature
- Edited documentation
