Version 2.2.5 du 21 avril 2024

<https://github.com/Ruben2776/PicView/releases/tag/2.2.5>

Changelog :

Fixed an issue with saving to the roaming directory, when there is no write permission #137 & #149

Fixed an error when attempting to use the resize function in fullscreen mode #148

Fixed a button missing text label "Swirl" in the Image Effects window #146

The text boxes for Title and Subject will no longer display Sytem.Byte[]

Added a new Reset to default button in the settings window
